Every 90 min

someone in Michigan is told they have blood cancer, creating a ripple effect that can devastate the entire family – emotionally, socially and financially.

Thanks to you, these families don’t have to walk this road alone.

Here’s a glimpse into the impact you made possible in fiscal year 2019.

3,200+ supported in fiscal year 2019!

patients

10,000+ family members

With your ongoing support, Children’s Leukemia Foundation of Michigan (CLF) continues to envelope adults and children across Michigan with programs and services that help keep their heads up and families sustained while they’re battling leukemia, lymphoma, multiple myeloma, and other blood related disorders.

“Thank you for the care, concern, resources, fun free events and financial help. This cancer has done its best to take us down, but CLF is always there to hold us up.”

– Molly & Leo P.

Last year was inspiring, thanks to all of you. Our experience shows us that, for patients and families facing blood cancer, the road is often long and arduous, and it’s most always expensive. Unfortunately, such hardship is almost incomprehensible unless you personally walk through the drastic lifestyle changes, fear, isolation and mounting medical bills that can accompany a diagnosis.

Last year, the demand for our services increased by an overwhelming 47 percent! This statistic reinforces the extreme need for support that exists among our family members, friends, neighbors and co-workers as they’re battling these diseases. With urgency like never before, your generosity enabled us to serve in this way.

Whether you gave your time, abilities, or resources, THANK YOU for igniting awareness of our mission and helping us accommodate more help for patients and families in need. Together, we’re positively impacting their future by ensuring support today. I look forward to what’s in store for this year.
